## Mark the date: Myfab and NorFab User Meeting 2013 Ångström Laboratory, Uppsala 17-18 April, 2013

Welcome to attend and contribute to the Myfab and NorFab User Meeting 2013 at the Ångström Laboratory, Uppsala, 17 – 18 April! For the first time, NorFab and Myfab will arrange a common user meeting focusing on cleanroom techniques and processes.

The program will include a few invited international and national speakers. The main part will, however, consist of thematic work-shops of about 1 hour comprising short presentations and discussions. The focus here will be on practical issues and sharing experiences. In addition, you are invited to present your research in the poster sessions. You may also attend guided tours in the Ångström Laboratory.

**Registration will open in January.**

NorFab will offer financial support for the Norwegian participants. The details and extent of the support will be given in the announcement in January.

### **QUESTIONS/CONTACT**

Questions about the user meeting should be directed to the NorFab Coordinator

Hanna Gautun
